

Helen Schubert, Dominion Title

Dominion Title is excellent to work with. When dealing with difficult and stressful situations, they stay on top of things, and do an excellent job of follow-up to help ensure that closing happens on time!

I have worked with them many times and with clients in many different situations. Once I had an extremely nervous and detail-oriented buyer. Dominion worked with me to get the documents from the lender as early as possible and prepared them so my client could read them prior to coming to the closing. This made her feel extremely comfortable when her physical settlement occurred. They really do try to take the stress away!

In addition, they have closed loans for my dearest friends and family and I trust them with each client. Lately, I've been doing a lot of foreclosure purchases where the bank tries to push my client to use their preferred company. I do my best to redirect the closing to Dominion. When I work with any other company, there are continuous obstacles. In fact, I usually end up calling Dominion with questions on my transactions even when they aren't involved because they will get back to me faster than company handling the closing will!

Dominion Title has my trust and respect. I will continue to work with them as frequently as I can.
