

Helen Schubert, Dominion Title Corporation

Dominion Title Corp. has been my preferred settlement agency for almost ten years. They have never made a mistake in any of my closings. Couple this with the most competitive pricing available, and it's a no brainer. Dominion Title Corp. has an attorney available for legal issues, who has successfully resolved problems for me many times. Further, this is a family-owned and operated business, and I work with all of them through each transaction. You cannot find more dedicated, pleasant, knowledgeable, efficient, attentive, generous, and gracious employees in this day and age. Settlements are ALWAYS a positive experience at Dominion Title. It is a joy and a complement to my business success to always work with Dominion Title Corp.

Recently, Dominion Title went completely over and above the call of duty. Connie, the settlement agent, and owner of Dominion, not only came to Old Town (and waiting for me for a half an hour because I couldn't find the place -- that I, yes, I had chosen) but for also had the patience and good humor to deal with the loan docs that were completely wrong. It was truly an extremely frustrating and overly long settlement due to these stupid loan docs, saved only by the fact that all the people at the table were extremely good-natured. In addition, they offered their usual generous closing gift of a \$100 credit (or gift certificate), because I'm not sure we would have made it, honestly, since the buyers (they have no checking acct. in the U.S. because they live in Ecuador even though he's American) had to come up with about \$400 in cash (and that was all they had!!) BRAVO Dominion Title, ONCE AGAIN!

Settling with Dominion is always a BLAST, not to mention always accurate, competitively priced, a WONDERFUL event for everyone, and super nice people to do business with.
